On behalf of the Board of Directors for ASIS North Florida Chapter, I wanted to take this opportunity to say, “hello” and welcome you to your newly relaunched chapter. Your ASIS International membership automatically includes being able to participate in the chapter.

Just as the Chapter voted in the Executed Board and many others stepped up to fill a variety of Board Chair and Liaison roles, we were impacted by COVID-19. Our plan to relaunch the Chapter with an in-person **Social** was postponed and ultimately cancelled...at least for 2020. As much as we wanted to meet in person for our relaunch, SAFETY must be our first priority! The Board has been meeting virtually every month, each time hoping for a better outlook on gathering together.

When it is safe to do so, the chapter will be holding regular in-person meetings, offering quality education and networking programs. Until then we will be offering virtual programs beginning in October. Please see the Upcoming Events page for the details and registration link. One of the things we’ve been able to accomplish virtually is changing our Chapter name. That change was hugely supported by the membership via April’s survey monkey and better reflects the membership as a whole from St Augustine, Jacksonville, Gainesville, Tallahassee and all points in between.

We have a number of exciting volunteer opportunities available to become active at a Chapter Board level. We are happy to help you find something that meets your interests and serves your personal growth needs as well as the chapters. Reach out to us via the chapter email at [jacksonvilleasis091@gmail.com](mailto:jacksonvilleasis091@gmail.com) to express your interest. ASIS is about YOU! I have found that the more energy I put into the organization, the more I get back, and I’m sure you will also find this to be true as you begin to participate and get more involved.

We will keep you advised of all things chapter related via email, website, social media and monthly newsletter so please make sure to keep your ASIS profile information updated. Contact me if you have any questions, and again, welcome to your NEW chapter and please get involved at this local level. I’m confident it will only increase the value of the sound investment you’ve already made in your professional future by being a member of the most recognized organization in the security industry globally.

Warm regards,  
Chet Price

Brendan Kamps is a Project Engineer for Jacksonville based security and technology consulting firm H. Stephen Jones & Associates (HSJ).

He is an expert in doors and access control systems with multiple certifications and a long list of successful projects to prove it. He sits on the editorial board for the Door Hardware Institute's Door Hardware magazine and is a certified Door Hardware Technician (DHT), Door Hardware

Consultant (DHC), and Fire Door Assembly Inspector (CFDAI). After Brendan realized he had a passion for the security industry and wanted to grow in it, he went and obtained his PSP® certification from ASIS earlier this year!

Brendan is originally from Ontario and received his degree in Construction Engineering and Building Construction Technology from Fanshawe College in 2009. After graduating, he landed a great entry level job with a door hardware distributor where he fell in love with all the subsystems, components, and building codes that make up the complex world of door hardware. He worked on projects for universities, women's shelters, hospitals, corporate offices, and long-term care facilities all over the province and the bordering states. In 2018, Brendan decided he wanted to pursue the next steps in his career in the U.S. and was granted a work visa. He moved to California where he continued his work in door hardware then landed his current job in Florida where he has been for the last year. In that year, he has tackled complex projects and problems for Orlando International Airport, Nemours Children's Hospital, JEA, Jacksonville Transportation Authority, and the City of Gainesville.

Brendan serves as the Emerging Professionals and Security Industry Liaison for ASIS North Florida Chapter. Given his thirst for knowledge and passion for mentorship, he will be a great asset to the chapter. If you ever have an access control or door question, don't hesitate to reach out to Brendan for a helping hand.

Brendan Kamps, 904-479-2283, [Brendan\\_Kamps@hsjtech.com](mailto:Brendan_Kamps@hsjtech.com)

Brendan is a new chapter member. Please welcome him to the chapter and to the roles of Emerging/Young Professionals and Security Liaison.

## Why Get Certified?

To remain as competitive as possible, you must be certified! The bar continues to be raised in the security profession. Employers want to ensure they are hiring the most knowledgeable practitioners in the business.

Professional certification from ASIS International has the backing and the credibility of the most preeminent professional security society in the world.

Questions? Contact Certification Chair, Amanda Vutsinas, CPP at [amanda.vutsinas@bcbsfl.com](mailto:amanda.vutsinas@bcbsfl.com)

## Updates for the Florida PI, Security and Safety industry

Florida Commissioner of Agriculture (Nicole Fried) issues [Emergency Order 2020-026](#) on 08/21/2020 and [Emergency Order 2020-024](#) on 08/18/2020 extending Emergency Order 2020-10 and Emergency Order 2020-004 for sixty (60) days.

All FDACS regional offices (except Tallahassee) are closed to the public but do allow “drop-off” of all license applications. FDACS continues accepting online and mailed license applications/renewals. Fingerprinting services for license requirements are not being provided by regional offices (except Tallahassee) at this time. FDACS accepts approved [Livescan](#) fingerprinting services for licenses issued under chapter 493. Licenses issued under chapter 790 must still be done by a law enforcement agency, FDACS or participating tax collector office. For more renewal information see [FDACS.gov here](#).

The State of Florida, Department of Agriculture, Division of Licensing’s Private Investigation, Recovery, and Security Advisory Council (PIRSAC) meeting was held on 08/07/2020 by teleconference and made available for the public. This council meets at least four times a year to advise the FDACS and make recommendations relative to regulatory concerns of the private investigative, recovery and repossession, and private security industries in Florida. See below for information from this meeting.

- The Director of the Division of Licensing (Stephen Hurm), select staff, Council members and members of the associated industries were in attendance.
- 493 and 790 license expiration dates continue to be extended. Licensees with expired and or expiring licensure should contact [FDACS](#) as soon as possible to avoid late fees associated with expirations (these fees are currently being waived).
- FDACS is reporting that Mondays are the largest consumer call counts at 2800 calls a day and other days of the week ranging from 1600 to 2200 calls per day.
- FDACS is still pursuing the pilot program in six counties to enable the use of local tax collector offices to accept class D license applications. These counties should all be operational around October of 2020.
- The form [DACS-16013](#) required for a class G license was not waived by any of the issued emergency orders.
- It is a goal for FDACS to replace paper license applications with online applications. No dates were given as to when this might begin.
- When FDACS offices reopen, they are expected to be “by appointment only” and will not have a “waiting area” available for walk in customers.

The next meeting for The Private Investigation, Recovery and Security Advisory Council is scheduled for Friday, November 13, 2020 at the Hyatt Regency Grand Cypress, Orlando, Florida. For more information contact [Stefannie.Corbett@FDACS.gov](mailto:Stefannie.Corbett@FDACS.gov).

**NOTE:** FDACS has posted the first licensing newsletter for 2020 (The Licensing Ledger Volume 32, Number 1). It contains details for the department’s response to the COVID-19 Pandemic and other useful information. The newsletter can be found at <https://www.fdacs.gov/About-Us/Publications/Licensing-Newsletters>.

Women have gone through a series of struggles to prove their capability and become equal in the workplace to their male counterparts. Prior to World War II, women were expected to stay home and provide care for the household, and children and men were expected to “bring home the bacon.” Ideologies began to shift as women who entered the labor pool during the war wanted to remain in the workforce; women’s pursuit of equal pay and equitable working conditions continues today.

Over time, there have been many changes in the role of women in the security profession and their contribution to the industry. There is a new movement on the horizon, and it includes capable women implementing a vision of change.

The reality is that just ten years ago, the percentage of women in the security industry was virtually nonexistent. More recently, women have actively positioned themselves for growth within the security profession in both government and private industry. At this time, the number of women in security is rapidly increasing in the workforce.

ASIS supports “Women in Security” and offers a community where women network with women. Contact the WIS Council to Learn more about the community and upcoming events.

Click  
Here

Are you a Women in Security with a success story to share?  
Do you have a topic you’d like to see covered?  
Please email Women in Security Chair, Katie Pilotti, at [pilottik@vystarcu.org](mailto:pilottik@vystarcu.org)

*You cannot be what you cannot see.  
Companies should promote their women in  
security to author white papers, speak  
on conference panels, and speak at K-12,  
colleges, and universities.*

## SOCIAL MEDIA TIP CARD – RELEVANT FOR ALL

As a professional, you are likely accustomed to using the Internet each and every day. NOW MORE THAN EVER, Zoom, GoToMeeting and the many other platforms out there have become part of our daily routine as well. This writing specifically addresses how the risks that come with that use could greatly impact you and your career. Making smart online decisions will help you personally and professionally throughout your life.

### **DID YOU KNOW 40 percent of companies have a social media policy in the workplace**

SIMPLE TIPS...YES, but which ones could you do a better job with?

1. Trust your feelings. If something doesn't feel right when you are online, stop what you're doing. If an email or website seems suspicious, report the problem to the system administrator.
2. Think before you click. Don't open emails or download attachments from strangers.
3. Keep your personal information private. Avoid sharing your name, address, telephone number, and other personal information when using the Internet.
4. Remember to protect your cell phone and tablet. Use a PIN, thumb print, facial rec or password to lock the devices. The same tips for being safer online apply when you access the Internet from any device.
5. Make sure your profile picture is professional. This is public regardless of your privacy settings. When someone searches you on Google, they will see your profile picture.
6. Consider your pages for websites like Facebook, Twitter, and LinkedIn...it's your "live" resume. Always remember that even if you delete things, it is likely not gone forever. Google, Facebook and other companies keep a digital footprint of everything. This could in turn be a post or picture that a future employer may see.
7. Although it's great to network with others, be careful who you befriend. Simply because someone with mutual friends wants to add you on a website or app does not mean they are trustworthy. Think about the information you share online about yourself or your family and if you really want a person you don't know well seeing that information too.
8. Avoid oversharing online or in person. While it may be very exciting to share what you do at work with others, remember your organization's security standards and be careful what you share. And remember...you never know who may be overhearing your in-person conversations.
9. Put away your work identification or badge when out in public and when using public transportation.

For our purposes, Emerging/Young Professional isn't an "age" thing. If you've been in your role less than 5 years, that's you. Please contact our Emerging/Young Professionals Liaison, Brendan Kamps, PSP at [brendan\\_kamps@hsitech.com](mailto:brendan_kamps@hsitech.com) if there is a topic you'd like us to explore.

The ASIS International Mentoring Security Leaders program is a career development methodology whereby ASIS members (Protégés) are matched with experienced ASIS colleagues for guidance and professional advice in order to gain knowledge and experience for dealing with the Protégé's immediate business-level requirements. The Mentor/ Protégé relationship also provides a conduit for comprehension of the requirements for advancement of future career paths within the security field.

Any ASIS member, at any job level may participate in the program. Depending on the experience level of the Protégé within the security industry the Mentoring Program will match up the Protégé and Mentor based on the Protégé's current experience level. This will allow the Mentor to provide guidance and advice at the correct level intended to assist the Protégé at their current experience level for skill improvement, company and industry cultural comprehension, educational foundation expansion and broadening quality performance to encourage future career advancement.

The program is designed to promote long term leadership and career development through a one-on-one Mentor-Protégé relationship. Mentors share their experiences and advice on such topics as career advancement, professional visibility, networking and overcoming barriers to career success.

*There is no substitute for experience but surrounding yourself with mentors who have walked the same path is the next best thing.*

For more information or to participate in the program as a Mentor or Protégé, contact Mentorship Chair George Frandsen, CPP at [george.frandsen@bcbsfl.com](mailto:george.frandsen@bcbsfl.com)

In support of the North Florida Chapter Relaunch, GuideWell/Florida Blue is graciously offering to underwrite Career Development Scholarships to a limited number of chapter members.

**Current Certified Members** - Build your security knowledge and earn CPEs all year long with a webinar subscription. Includes all 2020 webinars (live and on-demand), plus all 2019 on-demand webinar recordings – Valued at \$149

**Looking to Earn Your CPP Certification?** CPP Complete Reference Set includes 8 Volume POAs and 7 Volume *Standards and Guidelines* – Valued at \$458

## ASIS International Goals for 2020

1. Achieving recognition for the profession.
2. Accelerating digital transformation.
3. Elevating the security function to influence organizational success.
4. Serving global needs.

## ASIS Regional Goals for 2020

1. Encourage membership from all aspects of the security, law enforcement, military and learning communities.
2. Actively encourage members to seek leadership positions at the chapter and region levels.
3. Conduct at least one joint program in each ARVP district.
4. Increase meeting attendance and think outside the box.

## ASIS North Florida Chapter 091 Goals for 2020

1. Provide quality networking opportunities through chapter events.
2. Provide relevant content, delivered by knowledgeable speakers at chapter events involving presentations.
3. Improve chapter communications.
4. Actively pursue membership to fill board chair and liaison roles and establish a succession plan.
5. Engage with on-hold members to encourage membership renewal.
6. Grow membership by 15%.

## Our Mission

- To provide the opportunity to network and interact with colleagues and other security practitioners in a local setting
- To provide educational training and professional development for our members designed to arm them with the most up-to-date information concerning the challenges of todays security practitioner.
- To provide opportunities for the retention, growth, and diversity of our membership.
- To provide assistance in obtaining the industry's most coveted and recognized certifications, the CPP, APP, PSP, and PCI.

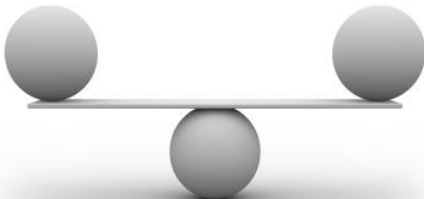

If you are a product or service provider, please be respectful of the membership and the intent of the ASIS organization as a whole. It is to provide educational training and professional development for members and arming them with the most up-to-date information concerning the challenges of today's security environment. It is also to provide members the opportunity to network and interact with colleagues and other security professionals in a local setting. Adhering to a few simple guidelines will ensure that our members become engaged, participate regularly and will find value in what the chapter has to offer.

## DO:

- Become involved with the chapter in a role that fits your background and experience
- Attend chapter events on a regular basis
- Network and build beneficial relationships within the chapter
- Treat others with respect

## DON'T:

- Pass out business cards in an ad hoc manner. Only handout business cards when one is being mutually exchanged between you and another event attendee
- Send email blasts to the entire membership
- Use chapter events as a sales opportunity
- Share membership lists with non-members
